

REAP-POSSESSORS

WGAW Registration Number: 1367122

Reap-Possessors takes a comedic approach at the present day explorations of supernatural investigations and the continued softening of monster lore. From the advent of "glittery" vampires to the drama of a "cursed" family, no stone remains unturned.

Through the hero's journey, this series chronicles the suffering and triumphs of our wayward heroes as they face off with an ageless threat against humanity.

For over two thousand years, two ancient curses have struggled for influence over our world.

The first curse, born from the hubris of Artimus Akkadian, released demons from hell. These demons's goal is to spread darkness throughout mankind. This first curse has forced the Akkadian family to rectify Artimus's mistake and free our world from the evil that corrupts it.

The second curse, born of Judas's mortal sin, allows Satan to create a monster that exists to serve evil and destroy the forces of good in this world, allowing darkness to easily spread. However, through his own pride, Satan loses control of his creation.

In present-day New York, the last of the Akkadian family line, John and Milton Hawk, the fraternal twin sons of James Hawk, the greatest Reap-possessor in the history of the family, are summoned home. James reveals the family curse to them after realizing his time has ended. Stunned by his fantastic tale, John and Milton are left to fend for themselves when their father suddenly disappears in a desperate search for their mother, Elizabeth.

Bumbling, John and Milton try to take on their new role and learn the mysterious life of their father. Quickly in over their heads, they receive assistance from an old family friend, Cain. John and Milton, eventually, find themselves confronted with the cruel insanity of Judas, for which, no amount of training can prepare them.

Judas resents the Akkadian family and their path to righteousness. He has vowed to eradicate them and bring about his only chance for peace, the end times.

Joined by a beautiful mystic from the East, Lota, they begin to fulfill their destinies in the best way they can.
